

Mission Statement:

“To create safer environments and improve the quality of life through the use of CPTED principles and strategies.”

August 4, 2012

To whom it may concern,

I have had the pleasure and honor of working with Mr. Steve Woolrich of SeCure Consulting Solutions Inc for more than 6 years. We have developed both a professional and personal relationship and I can speak directly to his character and expertise.

As the Founder of the ICA I have developed working and personal relationships with the top CPTED professionals and practitioners around the world. I am pleased to say that Mr. Woolrich is very comfortably in this circle of professionals.

Mr Woolrich joined the Board as a Director of the International CPTED Association in 2010 and had been active with the ICA for several years prior. His outstanding work in the Red Deer and Southern Alberta regions brought him to our attention and we vigorously recruited him to our International Board of Directors. We have been benefiting from his expertise, understanding of community connectivity and creative thinking since.

I have also had the opportunity to experience Mr. Woolrich's work at both the community and corporate level. His professionalism, depth of knowledge, understanding and identification of the issues affecting specific projects are evident in everything he undertakes.

Red Deer would be well served to have someone with the expertise, knowledge and perspective that Mr. Woolrich brings to every project he undertakes and I can unreservedly recommend him for this contract.

I may be reached for questions at your convenience at 403-818-8429 or by email to office@cpted.net.

Respectfully,

Barry Davidson,
Executive Director/Founder
